

Job Description

Samsung R&D Institute India – India is amongst the top hotspots of Samsung's growth strategy and Samsung Research & Development Institute-Noida (SRI-N) is one of the largest Overseas R&D Centre of Samsung Electronics. It is focused on building market ready products, customer centric solutions and inspiring innovation across the globe.

Founded in 2007, SRI-N has grown to be a significant contributor to innovation, filing patents, working on cutting edge products and services and developing applications like the S-Bike mode, turbo speed technology etc. Our engineers, from top Engineering Institutes across India, conceptualize and commercialize novel features, designs, products and services that differentiate Samsung as a market leader and deliver world-class products. SRI-N has become one of the major centres of OS Upgrade Development and is now focusing into advance R&D.
