

GUEST LECTURE on “Importance of Surveying in Civil Engineering”

A guest lecture was held on 15th September’16 in Auditorium as per the following details:

Name of the Speaker : **Dr. A.M. Chandra**
Title & Affiliations : **Professor and HOD**
Department of Civil Engineering
Arba Minch University
Ethopia

The lecture was attended by students of B.Tech in Civil Engineering of all years starting from IInd year.

The lecture covered in general the importance of engineering drawing and surveying for all engineering streams and of plane and geodetic surveying for civil engineering students in particular. Dr. Chandra also shared his experience of studying and teaching Surveying to undergraduate students at the then University of Roorkee, Roorkee which emphasized the importance that needs to be given to the subject of Surveying for civil engineering students.

The lecture was found very informative by the students and the faculty members.
